53 Beirut is a special concept store that highlights only Lebanese designers. You'll find unique jewelry, fashion and home accessories, a "Dekene" corner with handmade local treats. The space also includes fun workshops and a cozy coffee shop serving high-quality coffee and homemade pastries.

The store was started by childhood friends Diva (an interior architect) and Belinda (a fashion designer and visual merchandiser). It began as a small project to sell their handmade jewelry and art, then grew into a creative space supporting many other talented Lebanese designers. Their workshops are a great way to learn new

skills, meet people, and even launch your own business. You can also walk in anytime to make art — bring your own materials or use theirs for a small fee, you just pay for what you order.

The space is also available for private workshops and pop-up events, making it a flexible and welcoming place for creativity and community.

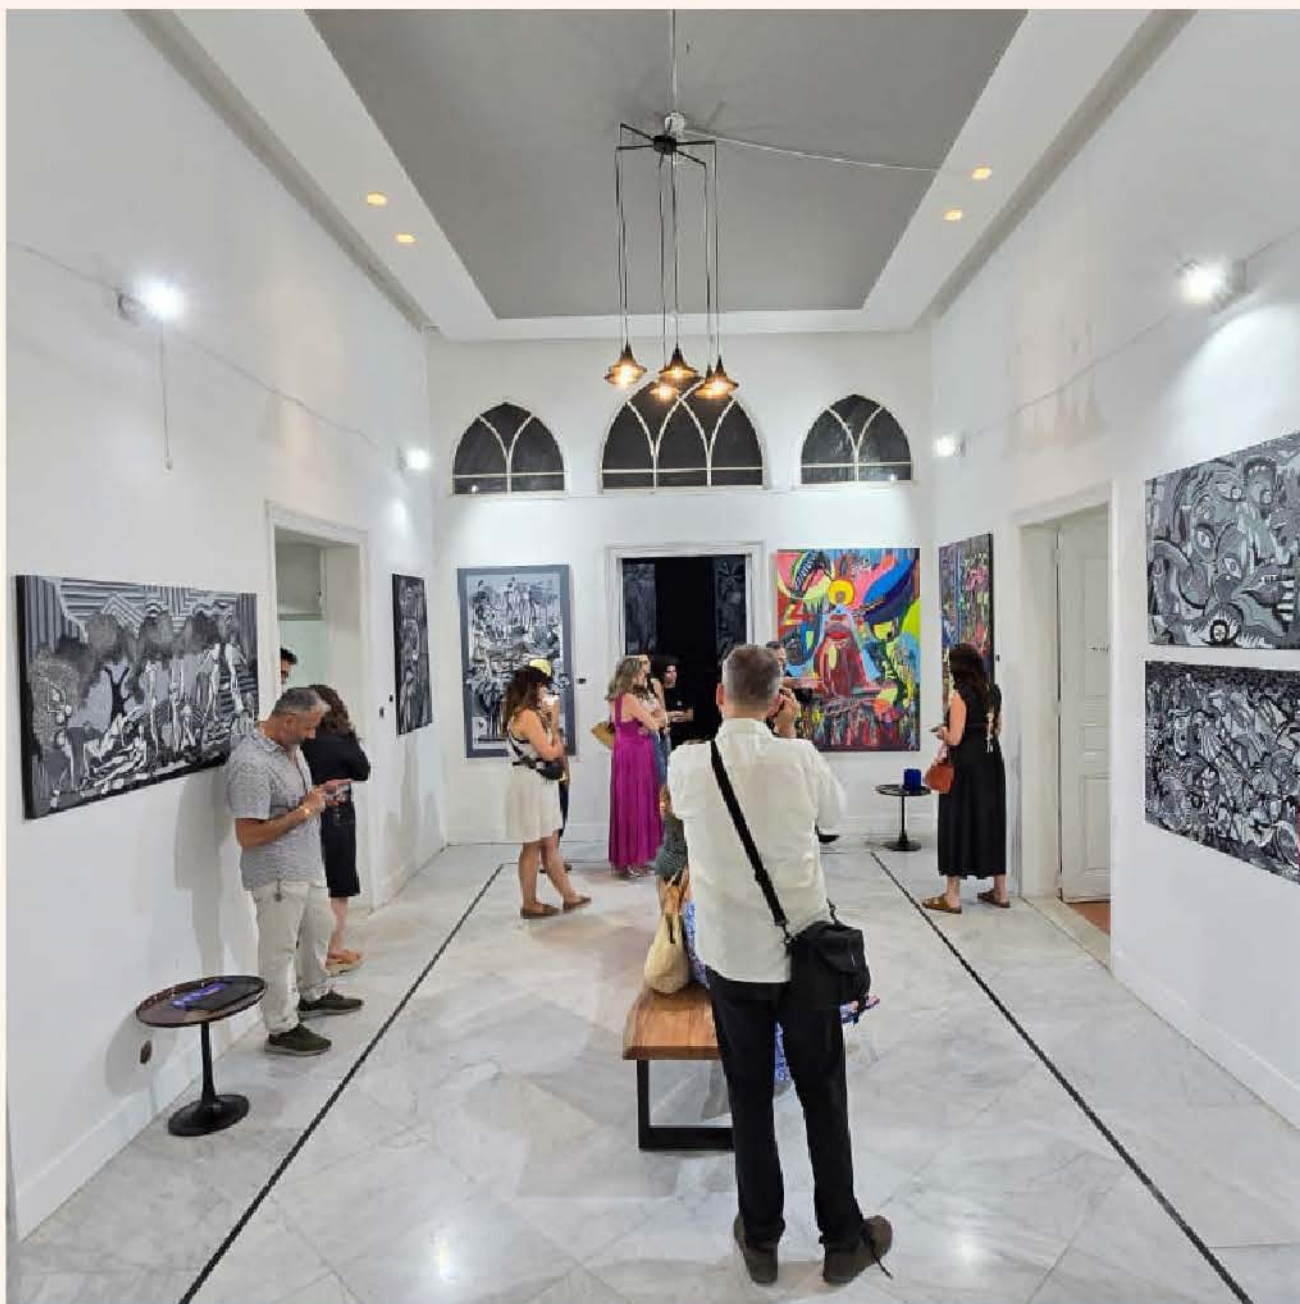

BeyArt is an art platform founded in 2022 aiming to connect talented artists and art enthusiasts through curated exhibitions and cultural collaborations, fostering a dynamic artistic community in Lebanon and beyond.

TERRAE LIBANI — Latin for “The Land of Lebanon” — is a collective exhibition curated by Ranine El Homsy celebrating the diversity, depth, and resilience of the Lebanese territory through contemporary art. We have invited artists to interpret Lebanon’s landscapes, cityscapes, flora, fauna, and human spirit — whether through documentary realism, abstraction, nostalgia, critique, or dreamlike imagination. This exhibition aims to reflect the full spectrum of Lebanon — its beauty, contradictions, vitality, and tension — through newly created, never-before-exhibited works.

In addition to the exhibition, we are proud to present a dynamic parallel program in collaboration with 53 Beirut.

The program is particularly active during Beirut Art Days (July 9–12). It includes: talks, workshops, a guided tour, community encounters and discussions.

These events will deepen engagement with the public and offer multiple entry points into the themes of the show.
